Migrants Advisory Board Election in Munich on 22 November 2026
Your voice is important – vote in the election!

Dear Munich residents,
dear eligible voters,

Often you need a German passport to vote in Germany. But this vote is different.
You are eligible to vote! With your vote, you decide who has a seat on the Migrants Advisory Board (Migrationsbeirat) of the city of Munich.

What is the Migrants Advisory Board?

- The Migrants Advisory Board is for all Munich residents who do not have a German passport, or who have a migration background. The aim is to give equal opportunities to people from all countries, and to promote coexistence without racism or discrimination.
- Currently, 40 people work voluntarily in their free time on the Migrants Advisory Board. They are interested in the wishes and concerns of the people who have fled here, who have recently immigrated here, or who have already been living here for generations. They are aware of many of their problems from their own experience and want to work together to find solutions.
- They are in contact with officials working in the city council and the administration. They can pass on ideas or recommendations to the right places in the Rathaus (City Hall). Together with other organisations, they are also involved in projects and events. These can be related to politics, education, sports or culture, but all have the aim of improving equal opportunities.
- The Migrants Advisory Board is an official committee of the city of Munich. You can find more information here: www.muenchen.de/migrationsbeiratswahl and on the website of the Migrants Advisory Board: migrationsbeirat.muenchen.de
